

Chapter 1: Introduction

72

Psychology 402 - Fall 2018 - Dr. Michael Diehr

Basic Concepts

- What is a psychological test
 - measurement device or technique
 - quantifies behavior
 - used to make predictions
 - (often) composed of individual items
 - (often) scored w.r.t. normative data

73

Psychology 402 - Fall 2018 - Dr. Michael Diehr

Why use tests?

- Why use tests? vs. the alternative -- just measure the thing directly
 - faster - saves time
 - more convenient, portable, virtual
 - standardize across space & time
 - less dangerous (e.g. brain surgeon)
 - more accurate(?)
 - \$\$\$\$ profit

74

Psychology 402 - Fall 2018 - Dr. Michael Diehr

Arguments against testing

- UnReliable -- inconsistent results
- InValid -- doesn't measure what it claims
- Biased -- treats sub groups differently
- Enforced conformity -- punishes creativity
- People & Institutions adapt -- "study for the test", specialized tutoring
- Expensive -- few large private companies hold most of the business
- Privacy & Security & Cheating

75

Psychology 402 - Fall 2018 - Dr. Michael Diehr

Test types: administration

- Types of tests:
 - Individually-administered Tests
 - Group-administered Tests
 - Computerized (?)

76

Psychology 402 - Fall 2018 - Dr. Michael Diehr

Test types: domains

- Ability, Capacity or Potential
 - **Achievement**
 - learned skills or knowledge in specific area
 - **Aptitude**
 - ability to learn new skills / knowledge in specific area
 - **Intelligence**
 - general ability

77

Psychology 402 - Fall 2018 - Dr. Michael Diehr

Test types: domains 2

- Personality
 - Structured (“Objective”)
 - Projective
- Military & Civil Service
- Vocational Counseling
- Industry / Business
- Clinical Psychology / Psychiatry
- Health Psychology
- Neuropsychology
- Research

78

Psychology 402 - Fall 2018 - Dr. Michael Diehr

History - Antiquity

Psychology 402 - Fall 2018 - Dr. Michael Diehr

History : China

- Han Dynasty (206 BCE thru 220 CE) had test batteries for law, military, agriculture, geography, etc.
- The “Imperial Examination”

83

Psychology 402 - Fall 2018 - Dr. Michael Diehr

Gold, silver, brass & iron

“Citizens, we shall say to them in our tale, you are brothers, yet God has framed you differently. Some of you have the power of command, and in the composition of these he has mingled gold, wherefore also they have the greatest honor; others he has made of silver, to be auxiliaries; others again who are to be husbandmen and craftsmen he has composed of brass and iron; and the species will generally be preserved in the children. But as all are of the same original stock, a golden parent will sometimes have a silver son, or a silver parent a golden son.”

-- Plato, *The Republic*, circa 380 BC

85

Psychology 402 - Fall 2018 - Dr. Michael Diehr

Review

- Definition of Psychological Test
- Test Domains
 - Achievement
 - Aptitude
 - Intelligence
- Antiquity
 - Gold, Silver, Brass & Iron (Socrates, as written by his student, Plato)
 - “Socrates knew he was telling a lie”
- Non-western society
 - Chinese *Imperial Examination*

95

Psychology 402 - Fall 2018 - Dr. Michael Diehr

History : 18th - 19th Century

- The zeitgeist : colonialism, independence, contact between new races & ethnicities. Slavery.
- The needs: justify slavery, inequality.
- The techniques: very crude statistics, physical measurements
- Evolution vs. Creationism

96

Psychology 402 - Fall 2018 - Dr. Michael Diehr

Racial Attitudes of the 1800s

[...]There is a physical difference between the white and black races which I believe will forever forbid the two races living together on terms of social and political equality. And inasmuch as they cannot so live, while they do remain together there must be the position of superior and inferior, and I as much as any other man am in favor of having the superior position assigned to the white race."

-- 1858, in a debate with Stephen Douglas

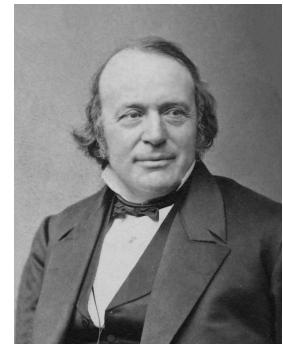

Abraham Lincoln

97

Psychology 402 - Fall 2018 - Dr. Michael Diehr

Louis Agassiz

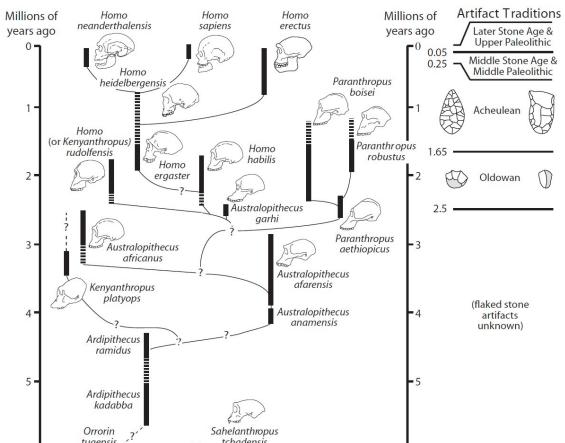

- Swiss-born, European-trained biologist / geologist
- Came to Harvard in 1847
- Creationist -> Polygenist
- Taxonomist
- Resisted Darwin's theory of Evolution

99

Psychology 402 - Fall 2018 - Dr. Michael Diehr

Taxonomy

101

Psychology 402 - Fall 2018 - Dr. Michael Diehr

Species

- Old definition:
 - group of organisms that can breed
- Modern definition:
 - "Species are actual or potential interbreeding populations sharing common gene pool, reproductively isolated from other groups."
- Example:
 - male donkey + female horse = mule (sterile)
 - female donkey + male horse = hinny

102

Psychology 402 - Fall 2018 - Dr. Michael Diehr

Species

- Hybrids
 - Mule = male donkey + female horse
 - Hinny = female donkey + male horse

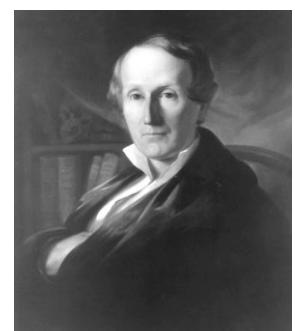

103

Psychology 402 - Fall 2018 - Dr. Michael Diehr

Samuel George Morton

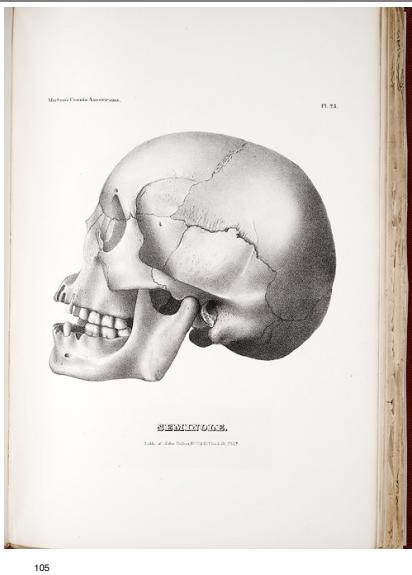

- Theory of Polygenism
 - Humans are composed of different species, created by god
- Craniometry
- Biological Determinism
- "Scientific Racism"
- The "American School"
- d. 1851

104

Psychology 402 - Fall 2018 - Dr. Michael Diehr

Crania Americana

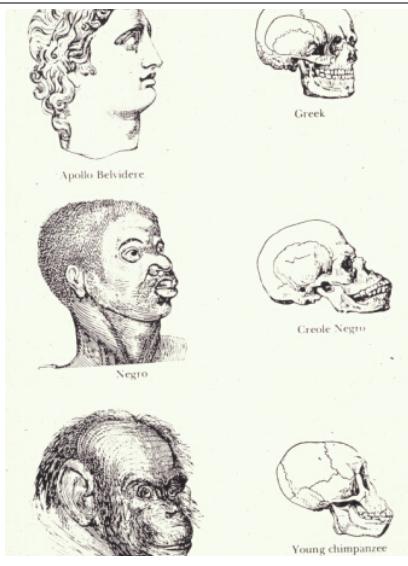

Samuel George Morton
1839

Psychology 402 - Fall 2018 - Dr. Michael Diehr

Indigenous Races of the Earth

note the false exaggeration of the chimp and negro skills to suggest that “blacks might even rank lower than the apes”

(Gould, p. 65, citing Nott & Gliddon, 1868)

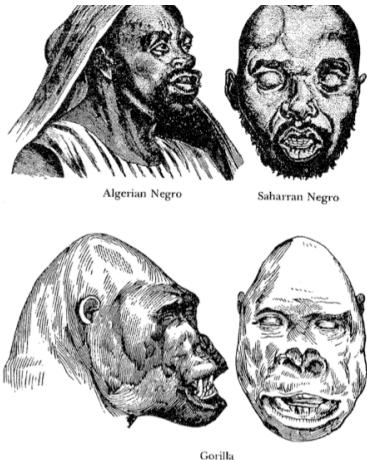

106

Types of Mankind

“An unsubtle attempt to suggest strong affinity between blacks and gorillas”

(Gould, p. 67, citing Nott & Gliddon, 1854)

Psychology 402 - Fall 2018 - Dr. Michael Diehr

2*2 An unsubtle attempt to suggest strong affinity between blacks and gorillas. From Nott and Gliddon, *Types of Mankind*, 1854. Nott and Gliddon comment on this figure: "The palpable analogies and dissimilitudes between an inferior type of mankind and a superior type of monkey require no comment."

107

Visible differences?

Indigenous
Australian
Melanesia
African
European

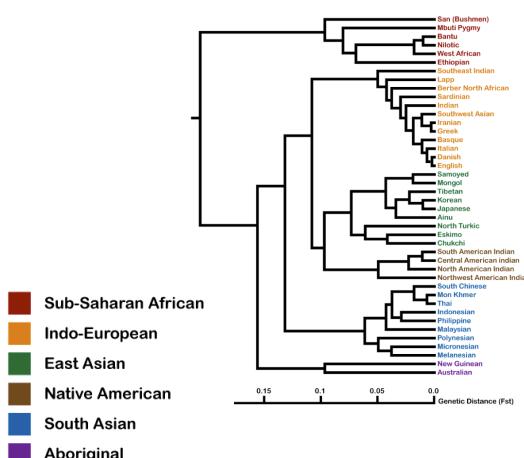

Australian and Africans are most genetically different

108

Psychology 402 - Fall 2018 - Dr. Michael Diehr

Genetic Differences

109

History : 19th - 20th Century

- The zeitgeist : Industrialism, world conflict, communism, capitalism
- The needs: healthcare, war, government -- desire to identify unusually high & low functioning people
- The techniques: Advanced statistics, measurement theory
- Theories of psychological development, intelligence, genetics.

Psychology 402 - Fall 2018 - Dr. Michael Diehr

112

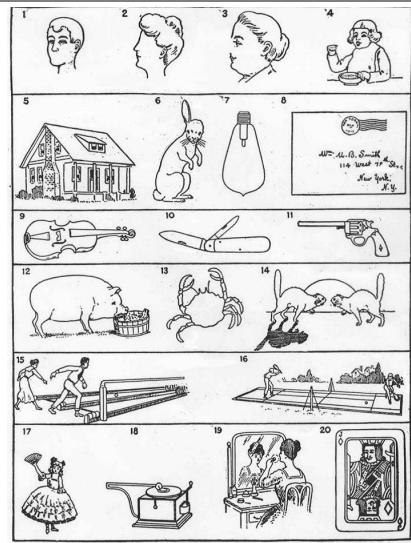

Early 20th century

- Notable events in history:
 - Binet-Simon Scale
 - introduced idea of IQ as ratio of mental age to actual age
 - use of standardization sample
 - Army tests -- WWI
 - Alpha -- literate
 - Beta -- illiterate

113

Psychology 402 - Fall 2018 - Dr. Michael Diehr

Army Beta

115

Psychology 402 - Fall 2018 - Dr. Michael Diehr

History: IQ tests

- Charles Spearman : “g” -- theory of general intelligence factor underlying all other special abilities.
- David Wechsler: WAIS and WISC tests
 - Subtests - Verbal vs. Performance Scales
 - Large normative group -- IQ = performance as related to peers
- Thurstone, Cattell, Guilford, Gardner, others: further theories of intelligence (covered later)

116

Psychology 402 - Fall 2018 - Dr. Michael Diehr

WAIS: Block Design

117

Psychology 402 - Fall 2018 - Dr. Michael Diehr

Summary

- History of testing... “A long past but a short history”
- America as newly independent colony
 - → independent science
- Slavery
- Theories of human development
 - Creationism (mono / poly-genism)
 - Evolution
 - Species
- Scientific Racism

119

Psychology 402 - Fall 2018 - Dr. Michael Diehr

Freudian Defense Mechanisms

- Level 1 - Pathological
 - Denial, Distortion, Splitting
- Level 2 - Immature
 - Acting out, Fantasy, Idealization, Passive aggression, Projection, Somatization
- Level 3 - Neurotic
 - Displacement, Dissociation, Hypochondriasis, Intellectualization, Rationalization, Reaction Formation, Regression, Repression, Undoing
- Level 4 - Mature
 - Altruism, Anticipation, Humor, Identification, Introjection, Sublimation, intentional thought suppression

124

Psychology 402 - Fall 2018 - Dr. Michael Diehr

History: Personality Tests

- Traits vs. States
- Structured (“objective”):
 - WPDS (early)
 - MMPI, CPI (modern)
 - 16PF (modern, based on factor analysis)
 - NEO (NEO-FFI: NEOAC)
- Unstructured / “projective”:
 - Rorschach (inkblot test, Exner’s scoring)
 - TAT (Thematic Apperception Test)

125

Psychology 402 - Fall 2018 - Dr. Michael Diehr

MMPI

1. I like mechanics magazines
2. I have a good appetite
3. I wake up fresh & rested most mornings
4. I think I would like the work of a librarian
5. I am easily awakened by noise
6. I like to read newspaper articles on crime
7. My hands and feet are usually warm enough
8. My daily life is full of things that keep me interested
9. I am about as able to work as I ever was
10. There seems to be a lump in my throat much of the time

126

Psychology 402 - Fall 2018 - Dr. Michael Diehr

MMPI-2

SB Hartley and J.C. McKinley

127

Psychology 402 - Fall 2018 - Dr. Michael Diehr

TAT

128

Psychology 402 - Fall 2018 - Dr. Michael Diehr

Rorschach 1

129

Psychology 402 - Fall 2018 - Dr. Michael Diehr

MMOM - Themes

- Biological Determinism - a theory of limits
- Measuring intelligence as a single quantity
- Plato: dialectic. Church: dogma. Now : science.
- “Book is about the scientific version of Plato’s tale”
- “Socrates knew that he was telling a lie”
- Science (and scientists) are not objective
 - social endeavor
 - fraud, but also (and worse) unconscious bias

131

Psychology 402 - Fall 2018 - Dr. Michael Diehr

MMOM - Fallacies

- Reification
 - naming a thing gives it disproportionate power
- Ranking
 - over-simplifying complexity by ordering on a single scale

132

Psychology 402 - Fall 2018 - Dr. Michael Diehr

Review

- Issues
 - Gold, Silver, Brass & Iron - The Republic
 - Species
 - Race
 - Intelligence
 - Fudge! (racial attitudes of the 1800s)
- Test Domains
 - Achievement
 - Aptitude
 - Intelligence
